

Purchaser for IoT products (f/m/n)

Full time - Karlsruhe, Germany

Our mission is to bootstrap the Service 4.0 industry.

Responsibilities

- Collaborate with product development to create hardware, with associated firmware, for the international IoT market.
- Project order processing for the development of these technical products.
- Creation and maintenance of the product catalog.
- Monitoring of compliance requirements and certifications.
- Purchasing and forecast control for components and finished products.
- Control of Asian suppliers and supply chains.
- Merchandise management for own distribution.
- Contact person for the purchasing departments of international distributors.
- Technical responsibility for the technical systems (ERP).
- Partner of own development department for product integration.

Required Skills

- Initial experience in purchasing technical projects and products, preferably IoT.
- Affinity for electronics and their specific requirements for compliance and certification.
- Already gained experience in contracting and managing suppliers, preferably in the Asian market.
- Strong service mindset for internal and external customers.
- Familiarity with Office products and first experience with ERP systems.
- Fluent in English and German language.
- Preferably also initial experience in cooperation with an internal product development department.

A mentoring program, which accompanies you from your first day at work and provides you with advice and support

Excellent working conditions in modern offices

Countless benefits such as team events, flat rate for hot and cold drinks, smoothies, daily fresh fruits and vegetables, healthy snacks, team lunch and much more

About 320EAST

320EAST is a German technology company based in the center of the Karlsruhe technology region. We develop and operate our IoT platform as a SaaS solution with our own hardware.

Our mission is to bootstrap the Service 4.0 industry.

Due to the daily increasing lack of personnel, the quality of services changes to the negative. They come to a standstill or are not offered at all. Our platform of hardware and services provides a broad technical and operational foundation for service providers (our customers) worldwide.

We not only provide a measurable way out of the service dilemma, but also create new business opportunities for service providers.

„One-Stop IoT SaaS boots up Service 4.0“

320EAST GmbH is located in Karlsruhe (Register Mannheim), Germany.

**We look forward to receiving your application by e-mail with a meaningful CV and photo.
You are welcome to show work samples and name references.**
